

REQUEST FOR PERMISSION TO HUNT ON PRESERVES OWNED BY THE WALLOON LAKE ASSOCIATION AND CONSERVANCY

This agreement ("Agreement") is entered into by and between you, hereinafter referred to as the "Hunter," and WLAC, a non-profit organization, hereinafter referred to as the "Conservancy." The terms and conditions outlined below govern the Hunter's permission to engage in hunting activities on the specified properties owned or operated by the Conservancy.

I request permission to hunt on the nature preserve(s) owned by the Walloon Lake Association and Conservancy (the Conservancy) indicated below between September 11, 2026, and May 9, 2027. No hunting is permitted on WLAC Preserves between May 9 to September 11 in any given year. I acknowledge that the Conservancy, as a non-profit organization, can permit hunting on its properties only if it assumes no liability for granting such permission and for the actions of any person(s) to whom permission is granted. In order to induce the Conservancy to grant permission for me to hunt on its specified properties, I agree as follows:

Terms and Conditions:

1. Safe and Legal Hunting:

- The Hunter agrees to conduct hunting activities in a safe manner and in conformity with all applicable federal, state, and local hunting laws and regulations. The Hunter acknowledges that hunting is inherently dangerous and assumes all risks associated with such activities.

2. No Baiting:

- The Hunter agrees not to use bait of any kind in connection with any hunting activities on Conservancy properties.

3. Blinds:

- The Hunter agrees not to construct any permanent blinds. Temporary blinds, including pop-up blinds, if used, are removed **after each outing** or must be made of natural materials. All materials used for a blind will be removed by May 5, 2026. The Hunter will reimburse the Conservancy for any out-of-pocket costs incurred to remove structures or materials placed on a preserve by the Hunter.

4. Wildlife Cameras:

- Quantity Limit: One (1) temporary trail camera is permitted.
- Labeling: The hunter must place their name and contact information on the camera.
- Removal: All cameras must be removed before the expiration date of your WLAC-issued hunting permit. If not removed, the camera may become the property of the WLAC.
- Permit Required: You must carry a WLAC-issued hunting permit while on the preserve.

5. Environmental Respect:

- The Hunter agrees not to cut or break down any trees or vegetation. Camping, removal of plants, dumping, or fires are strictly prohibited in any nature preserve owned or operated by the Conservancy.

6. Indemnification:

- The Hunter will indemnify and hold the Conservancy, including its trustees, affiliates, or any person representing the Conservancy, harmless from any damages, liabilities, claims, costs, or expenses resulting from any hunting activities on or near any preserve for which permission is granted. This indemnification includes damages, liabilities, claims, costs, or expenses resulting from injury or death of any person or damage to any property. It specifically includes legal costs incurred by the Conservancy in the defense of any action threatened or brought against it.

7. Authorization:

- The Hunter has no authority to authorize any other person to hunt on any preserve indicated below.

8. Non-Exclusive Permission:

- The Hunter acknowledges that any permission granted is not exclusive, and the Conservancy may grant permission to others.
